

Credit Union Is Formed at Ryan

Establishment of the Ryan Employees Federal Credit Union to serve employees of Ryan Aeronautical Company at its plants in Torrance, San Diego, and Inglewood, was announced today.

Charter subscribers elected Jack Billings, airframe assistant superintendent, as president, and Eloise Simonson, former personnel department assistant, as treasurer and full-time office manager.

Other new officers are Jeff Conrad, an assistant foreman, who will serve as vice president; and Myra Piazza, administrative secretary to the executive vice president, who will be clerk (secretary).

The Credit Union, chartered by the U.S. Bureau of Federal Credit Unions in Washington, D.C., will receive savings deposits from employees, primarily through authorized payroll deductions, and will make useful loans to members at reasonable cost.

Although a separate legal entity, the Credit Union is being assisted by the company in its early operations, and is being provided office space in the Personnel Department.

Science Sermon To Deal With Eternal Life

The popular proverb, "As the tree falls, so it must lie," is the underlying theme of the Lesson-Sermon on "Probation After Death" to be heard in all Christian Science churches Sunday.

From the book Isaiah will be read, "The grave cannot praise thee, death can not celebrate thee; they that go down into the pit cannot hope for thy truth. The living, the living, he shall praise thee, as I do this day; the father to the children shall make known thy truth" (38:18, 19).

VAN SEZ:

Do you know that a house fly in flight will make over 1,000,000 wing strokes per hour? Figure it out... 330 strokes per second!

Flies can be fought with screens. Today's modern homes are using aluminum tension screens by Columbia-matic. Light, rust-proof, easy to install, requires no maintenance. Ask about them today. Call Vans for your "screen story."
